The Israel Museum is the largest cultural institution in the country. It is one of the world's leading art and archaeology museums. Founded in 1965, it houses encyclopedic collections, including works from prehistoric to modern times in its wings of Archaeology, Fine Arts, Jewish Culture and Art. It also has the most numerous remains of Bible and Holy Land archaeology in the world. In just forty-five years, thanks to the donations, the museum has received the generous support of its international circle of benefactors, and has succeeded in bringing together 500,000 objects representing the entire spectrum of culture from the five continents.

*The Modern restaurant of the Israel Museum offers a contemporary, inspired and original cuisine. The restaurant's design, its location in the museum and the wide view from its windows offer an exceptional atmosphere!*
