CALLING ALL CREATIONS

A reminder that the closing date for submissions to this little magazine is fast approaching.

A2A was conceived with candidates of psychoanalysis and related psychotherapies in mind. A space where our collective bent on the inner and external world can be voiced, shared and engaged with.

We would like to encourage all creative, scientific, philosophical, political, psychoanalytical and artistic endeavours and pursuits whatever their shape.

Contributions can be a short reflection, long essay, art work, commentary, film review or poetry. Anything that inspires, enflames or enlarges you.

The first issue is out mid Jan 2021. Do include a short (<50 words) introduction about yourself with your work.
